## Product Special

### FASPLINT

Designed for the really messy trauma call or those situations when equipment retrieval is difficult, the **FASPLINT™** provides optimum immobilisation at a very affordable price. This semi-disposable vacuum splint provides secure immobilisation without circumferential pressure, eliminating the potential for tissue, vessel and nerve damage. Unlike air and board splints, the **FASPLINT** moulds to the contours of the patient's injury, so even difficult fractures and dislocations can be stabilised easily and quickly with a level of comfort that is unmatched by any other splinting technology. If ease of use and quality care are important issues for your responders, then the **FASPLINT** deserves serious consideration.

- F**ast application reduces on-scene time
- A**wesome ability to conform to each patient
- S**tabilises injury without unnecessary manipulation
- P**liable material performs in cold weather
- L**ow cost makes it disposable when necessary
- I**nstructional pictograms for ease of use
- N**on-magnetic valve is x-ray and MRI compatible
- T**apered anatomical design in 3 popular sizes

**only \$ 360.00 (GST excl.)**  
**normally \$395.00**
